ROTABELT

Technical features

Conveying distance	30 to 43 ft
Telescop length	9.3 ft
Belt width	14.17 in
Max. discharge rate	92 cu yds / h
Rotation angle	310°
Max. discharge height	23 ft
Weight	4,000-4,500 lbs
Steel structure	
No Stabilizers	

➔ Increased flexibility

Over 9 ft of telescope on the second section
Overall reach of 43 ft

➔ Multiple applications

Various applications (foundations, slabs , walls, columns...)
Place different types of materials (sand, gravel, concrete ...)

➔ Placing made easy

Wireless radio control
Sliding system preventing segregation and compatible with every kind of concrete plasticity

➔ Additional options

High pressure washer 1
Detachable system 2
