ROTABELT

Technical features

Conveying distance	from 32 up to 50 ft
Telescope – 2 nd section	14 ft
Belt width	14.17 in
Max. discharge rate	91 cu yds / h
Rotation	310°
Weight	5820 lbs
Steel structure	
Stabilizers	

➔ An increased flexibility

One telescope of 14 ft on the second section
Reach of 50 ft

➔ A lot of applications

Various applications (foundations, slabs ...)
Place different types of materials (sand, gravel, concrete ...)

➔ A delivery quality

Proportional remote control radio for greater precision
Sliding system preventing segregation and compatible with every kind of concrete plasticity

➔ Optional equipment

High pressure washer 1
Demountable system 2
